

# Phoenix Automation Line Card

## Industrial Automation Solutions

### Service Calls

We offer 24 / 7 / 365 emergency service. Because downtime costs your company thousands of dollars per hour, our priority is to efficiently restore production to its maximum capacity.

### Turn Key Solutions

Complete turnkey solutions to meet almost any industrial automation need. We will work with you to fully define your needs and take your new system from "cradle to grave", creating a robust manufacturing solution.

- System Requirements Definition
- Concept Development
- System Design, Develop, Test
- Equipment Build and Test
- Factory Installation and Commissioning
- Full System Documentation
- Customer Training
- Post-Installation Support

### Onsite Customized Training

Training tailored to your specific needs. Classes can be scheduled for any shift to accommodate your staffing requirements.

- Workbooks and classroom materials will be provided to each student.
- Examinations will be administered upon request.
